

Detectable Glasses Cord BSTGCA

[Show online](#)

This circular cord will ensure your eyeglasses are held safely around your neck.

ILLBY PLAST
plast - muovi - plastics

A lightweight and comfortable push-on silicone cord for your spectacles. This circular cord will ensure your eyeglasses are held safely around your neck.

These fully metal detectable silicone glasses cords are manufactured using soft, flexible, silicone rubber containing an evenly dispersed metal detectable additive with a stainless steel clip and adjustable spring. The cord is flexible and will push on to most spectacles with ease, once on you can secure with the adjustable metal spring.
