Detectable Security Tag

These single use 'pull tight' security tags are sequentially numbered and ideal for traceability applications. Both metal and x-ray detectable.

ILLBY PLAST
plast - muovi - plastics

These single use 'pull tight' security tags are sequentially numbered and ideal for sealing ingredient sacks, tote box lids, roll cages, marking assets, identifying keys and tracking products, as well as an infinite number of other traceability applications. The tags tear off feature allows it to be removed without cutting tools, which enhances health and safety by removing the need for cutting tools, also eliminating the cost of such tools.

BST Detectable Security Tags can be secured on objects up to 60mm in diameter, can be marked on the reverse with a BST fine tip permanent marker, and feature a return loop catch, allowing excess strap to be neatly tucked away.

Article No	BSTST
Material	BST XDETECT®
Detectable	Yes
Color	Blue
Food safe	Yes
Order number	BSTST
Measurements	200mm Operating Length
Weight product	40g
Packaging unit	100
