[Show online](#)

Traditional handle materials have been replaced by BST XDETECT® - to provide the finest quality stainless steel scissor with food grade metal detectable and x-ray visible plastic handles.

BST 9" kitchen scissors are a premium quality scissor suitable for food production or any other environment where hygiene and foreign body risks must be minimal.

BST 9 Scissors

The overall length of the scissor is 9" (23cm), with the blades (pivot to tip) being 4" (10cm) in length.

- Detectable by in-line metal detection systems & x-ray inspection systems
- Bright blue or red handles available for easy visual identification
- Stainless Steel 4" blades with a serrated blade, for sharp and crisp cutting of most materials
- Maximum cut length of 3 ¾"(8cm) and blades can be easily sharpened for long lasting service
- Strong, durable, shatter resistant & chemically resistant material
- Compliant with EU & FDA food contact legislation, including mandatory EU migration test standards
- Can be used as part of HACCP and BRC procedures

Displays due diligence in the prevention of foreign body contamination
