Lanyard and Bagde holder, metaldetectable

ILLBYPLAST
plast - muovi - plastics

Metal detectable silicone lanyards are produced from 1.0 mm thick food grade silicone cord containing evenly dispersed metal detectable additives. As well as the silicone cord being detectable, the various metal parts also add to the items detectability. These lanyards also incorporate a silverbased antibacterial/antimicrobial additive which is extremely effective against E-Coli, MRSA & Salmonella.

The detectable badge holder features fixing holes for a lanyard that allow it to be used in a landscape or portrait format. The holder will securely hold a standard sized ID card (86 x 55 mm).

Delivery 10 pcs / package

Article No	LANYARD
Size	100 x 12 x 1 mm
Weight	0,02
Material	Silicone and plastics
Detectable	Yes
Color	Blue
Core lenght	100 mm
Food safe	Yes
Order number	LANYARD
Packaging unit	10 pcs
