Disposable detectable earplugs

ILLBY PLAST
plast - muovi - plastics

Our disposable detectable earplugs are made using a detectable silicone cord and a metal crimp within the foam plug. The foam plugs roll thin for easy insertion into the ear canal. Unlike many throw away 'detectable' earplugs, both the cord and the plugs are detectable, improving safety should the parts become separated.

Fitting Instructions: Gently roll the plug between thumb and forefinger until fully compressed. Insert into the ear canal with a twisting motion until the plug starts to expand.

Delivery 200 pcs / package

Article No	BST112
Weight	0,75 / 100 pcs
Material	Silicone and plastics
Detectable	Yes
Color	Blue
Food safe	Yes
Order number	BST112
Packaging unit	200 pcs
EAN	BST112
