Ergonomically designed lightweight fully detectable scoop

ILLBY PLAST
plast - muovi - plastics

This ergonomically designed scoop is made using polypropylene co-polymer formulation, which offers market leading detectability, impact resistance, visual brightness and food standards compliance.

The scoop is designed to be lightweight and is ideal for handling ingredients such as herbs, spices, flour, sugar, salt, seeds, etc. The scoop holds roughly 1Kg worth of content depending on the density.

Despite its lightweight construction the scoop is almost impossible to break due to the outstanding mechanical properties of the polymer.

Product Advantages:

- Lightweight design minimises operator fatigue
- Detectable by both metal detection and x-ray inspection systems
- Shatter Resistant Polymer means near impossible to break
- FDA Approved & EU Compliant for direct food contact
- Displays due diligence in the prevention of foreign body contamination

Detect, Reject, Protect!™

Article No	BSTLHS1000
Size	70x90x290mm
Weight	0,096 kg
Material	Metaldetectable plastics
Detectable	Yes
Color	Blue
Food safe	Yes
Order number	BSTLHS1000
Packaging unit	1 pcs
EAN	BSTLHS1000
