

Metal detectable plain white uncoated labels

500 pcs. 121x60mm.

ILLBY PLAST
plast - muovi - plastics

[Show online](#)

BST metal detectable plain white uncoated labels are ideal for basic labelling applications in hygiene critical environments. The reverse side of the label is a 7 μ aluminium foil, which is highly detectable by most food industry metal detectors in environments where aluminium packaging is not used for the food product.

For bespoke detectable labels, please contact our sales team.

Article No	LABELMD
Size	121x60mm
Weight	0,45 kg
Material	Detectable materials
Detectable	Yes
Color	White
Food safe	Yes
Order number	LABELMD1
Packaging unit	Labels 500 pcs
EAN	LABELMD1
